

**CITY OF IRVINE  
MEMBER OF THE CITY COUNCIL**

**STEVEN S. CHOI, Ph.D.**

**OCCUPATION:** School Board Member, Irvine Unified School District

Dear Friend:

The time has come to have a new voice and a new vision on the Irvine City Council. I have served on the Irvine Unified School District Board of Education for the past six years, during one of its most challenging fiscal periods, as a result of California's unprecedented budget deficit. The City faces similar fiscal challenges. Irvine is going through an exceptional period of rapid growth, accompanied by many issues such as transportation, growth, congested traffic, increasing population density and crime, and the development of the Orange County Great Park.

With my experience on the Board of Education, I would now like to serve you as a City Councilman. My experience in working with large-scale planning and my keen interest in a performance-based, streamlined budget will help me serve Irvine well.

My vision for the future of our City includes:

Ensuring responsible growth for high quality of living for our community  
Maintaining the highest possible quality of education in our schools  
Developing the Great Park that the entire community can be proud of

Together, we can realize our vision for our community. I'd greatly appreciate your vote.

Sincerely,

Steven S. Choi, Ph.D.
